## TITLES AND KEYWORDS

- A**
- Absolute determination of the composition of binary gas mixtures by admixture of known components, Heslop, M.J., Mason, G. and Buffham, B.A. 1061
- absorption heat pumps 180
- active layer 643
- adaptive control 630
- adaptive controller 1115
- Adaptive fuzzy TSK model-based predictive control using a CARIMA model structure, Mahfouf, M., Linkens, D.A. and Abbod, M.F. 590
- Advances in cyclone modelling using unstructured grids, Slack, M.D., Prasad, R.O., Bakker, A. and Boysan, F. 1098
- agglomerates 55
- agitation 342
- air injection 715
- Air injection into light and medium heavy oil reservoirs: combustion tube studies on West Shetlands Clair oil and light Australian oil, Greaves, M., Young, T.J., El-Usta, S., Rathbone, R.R., Ren, S.R. and Xia, T.X. 721
- Air separation by polysulfone hollow fiber membrane permeators in series: experimental and simulation results, Lababidi, H.M.S. 1066
- alcohol/water separations 1084
- analysis 763
- antihypertensive 756
- Application of advanced computing techniques to oil and gas facility operation, Murray, A., Stronach, A.F. and MacConnell, P. 683
- Art of mixing with an admixture of art, The, Ottino, J.M. 871
- artificial intelligence 683
- artificial neural networks 683
- aspect ratio 425
- auto-tuning 312
- Axial movement of solids in gas-solid fluidized beds, On the Mostoufi, N. and Chaouki, J. 911
- azeotrope 779
- B**
- back propagation 118
- basic amino acid 756
- batch process 99, 231
- bed reactors 738
- bifurcation 481, 492

- Blending of Newtonian and shear-thinning fluids in a tank stirred with a helical screw agitator, Aubin, J., Naude, I., Bertrand, J. and Xuereb, C. 1105
- bond strength 55
- Branch and Bound 809
- Branch and Cut 809
- bubble columns 425, 889
- bubble size distribution 363
- bubbly flow 1153
- butene-1 492
- C
- calcium carbonate 894
- calcium oxalate 894
- capital-energy tradeoff 161
- CARIMA model 590
- case based reasoning 823
- catalytic reactor 269
- cavity pressure 79
- CFD 327, 334, 894, 1098, 1105
- CFD simulation of particle distribution in stirred vessels, Micale, G., Montante, G., Grisafi, F., Brucato, A. and Godfrey, J. 435
- CFD study of homogenization with dual Rushton turbines — comparison with experimental results, Part I: Initial studies, Jaworski, Z., Bujalski, W., Otomo, N. and Nienow, A.W. 327
- characteristic drying curve 107
- characteristics method 925
- Characterization of pigment powders for titanium dioxide/polymer dispersions by the 'masterbatch' process, The, Richardson, J., Matchett, A.J., Coulthard, J.M., Gibbon, S., Wilson, C. and Watson, C. 39
- chemical heat pump 745
- chemical products 5
- chemical reactor control 573
- circulating fluidized beds 860
- Clarifying filtrations of fine particle suspensions aided by electrical and acoustic fields, Wakeman, R.J. and Smythe, M.C. 125
- cleaning 168
- closed loop 293
- closed-loop process identification 528
- clusters 911
- coal blending 118
- coating ratio 49
- coefficient 633
- cogeneration 745
- cohesion 860
- coking 738
- collision initiation 749
- colloids 125

 Minimization of operational costs in cooling water systems, Castro, M.M., Song, T.W. and Pinto, J.M. 192  
 minimum area design 161  
 misinterpretation of results 840  
 mixed integer linear and non-linear programming 809  
 Mixed integer optimization in the chemical process industry: experience, potential and future perspectives, Kallrath, J. 809  
 mixing 39, 371, 871  
 Mixing effect on product particle characteristics from semi-batch crystal precipitation, Zauner, R. and Jones, A.G. 894  
 mixing time 327  
 model predictive control 509, 573, 581  
 model-based control 557  
 modelling 87, 731, 643, 662, 809, 881, 1066  
 Modelling the meniscus evacuation problem in direct gravure coating, Powell, C., Savage, M.D. and Gaskell, P.H. 61  
 Modelling and simulation of flow maldistribution in random packed columns with gas-liquid countercurrent flow, Sun, C.G., Yin, F.H., Afacan, A., Nandakumar, K. and Chuang, K.T. 378  
 Modelling transport phenomena and performance of direct methanol fuel cell stacks, Scott, K., Argyropoulos, P. and Taama, W.M. 881  
 Modelling transverse segregation of particulate solids in a rolling drum, Van Puyvelde, D.R., Young, B.R., Wilson, M.A. and Schmidt, S.J. 643  
 models 33, 419  
 molasses 419  
 molecular dynamics 1077  
 moving bed 465  
 multi purpose equipment 231  
 multi-fluid model 435  
 Multi-objective control scheme for an ETBE reactive distillation column, A. Sneesby, M.G., Tade, M.O. and Smith, T.N. 283
- multi-phase separators 690  
 multiloop control system 605  
 multiphase 707  
 Multiple effect evaporation — vapour compression desalination processes, El-Dessouky, H.T., Ettouney, H.M. and Al-Juwayhel, F. 662  
 Multiple objective based model predictive control of pulse jet fabric filters, Jun Ju, Mi-Sen Chiu and Chi Tien 581  
 multiple-objective optimization 581  
 multivariable system 565
- N**  
 near vertical upflow 404  
 networks-of-zones 348  
 neural networks 118, 299, 1115, 1147  
 non-linear programming 849  
 non-Newtonian 707, 1105  
 non-linear behaviour 481  
 non-linear control 299, 509, 573  
 non-linear control systems 621  
 non-linear models 630  
 non-linear optimization 192  
 non-linear programming 118  
 Novel measuring instrument for pyro-processes, A. Chan, C.H., Goodfellow, J.H., Goh, Y.R., Nasserzadeh, V., Swithenbank, J. and Taylor, D.S. 783  
 Novel non-linear programming-based coal blending technology for power plants, A. Chung-Yin, Zhongyang Luo, Junhu Zhou and Kefa Cen 118  
 Numerical modelling of cake formation and fluid loss from non-Newtonian muds during drilling using eccentric/concentric drill strings with/without rotation, Fisher, K.A., Wakeman, R.J., Chiu, T.W. and Meuric, O.F.J. 707
- O**  
 Observations on the distribution of energy dissipation in stirred vessels, Ng, K. and Yianneskis, M. 334  
 on-line correction 612  
 On-line monitoring for multiloop control systems under load disturbance, Bing Wang and Min-Sen Chiu 605  
 operability 454, 481  
 operational cost 192  
 Optimal control application to an industrial hydrogenation reactor, An, Abilov, A. and Koçak, M.Ç. 630  
 Optimal energy and cleaning management in heat exchanger networks under fouling, Georgiadis, M. and Papageorgiou, I.G. 168  
 optimization 136, 528, 621, 630, 849  
 optimization design 118  
 Optimization of the molar composition of the gel in the synthesis of titanium silicalite TS-2, De Lucas, A., Rodríguez, L. and Sánchez, P. 136  
 Optimization of plate fin heat exchangers: a continuous formulation, Reneaume, J.M., Pingaud, H. and Niclout, N. 849  
 orientation 33  
 Outer-Approximation 809  
 oxidation 715
